Resubmit your paper. Note: After 3 resubmissions, you will need to wait 24 hours after a resubmission to see a new Similarity Report.

Step 11) Please Log-Out. Leave it for at least 24 hours before you want to check the "Similarity Index". This is because the time required to scan to all databases takes certain time. Turnitin will continuously scan your file; by the time I look at your "Originality Report", it could be higher percentage than what you have seen if you check for it too early.

Step 12) Log-In following the same steps above to enter class page to check for "Similarity Index" of plagiarize. Click "Similarity Column" to view plagiarized sections.

- Make sure "Similarity Index MUST BE LESS THAN 40% to be considered as 'no plagiarized'.

Step 13) Click on red/highlighted paragraph which shows you have plagiarized.

METHODOLOGY

Capital expenditure
(Azarmi and Schmidt (2016) A direct proxy for how much a firm invests in a given year would be its cash outflows going towards plant, property and other intangible assets. This proxy does not capture the variability of year-to-year short term investment data.

The investment opportunity set of a firm profoundly influences the way a firm is viewed by managers, owners, investors and creditors. (Kallapur and Trombley, 2001)

LITERATURE REVIEW AND HYPOTHESES

Internal cash flow and capital expenditure

Investment Opportunity and capital expenditure

Leverage and capital expenditure
Additional borrowing is associated with higher short term investment which can be explained by pecking order theory of finance (Azarmi and Schmidt (2016).

Corporate debt helps align the private and social sector interests in which debt financing helps mitigate the overinvestment problem (Azarmi and Schmidt (2016).

They found amount of debt is significantly and positively correlated with corporate investment. However, debt has negative impact on production output and use of raw materials. Firms borrow to invest yet debt financing comes with more conservative sales and production strategies to safeguard managerial ability to service debt (Azarmi and Schmidt (2016).

Firm size and capital expenditure

Step 14) Make correction to paragraph which has been highlighted for plagiarized by PARAPHRASE (explain by using your own words) and CITE (Author/Books, Year) the sources.

Step 15) Resubmit in Turnitin same process as above but require 24 hours to recheck the "Similarity Index".

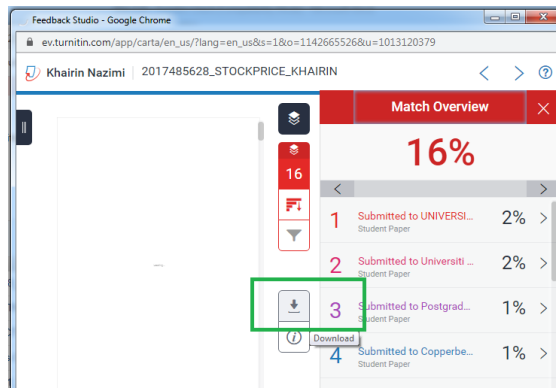

** You can submit as many times as you can but the latest one submitted will be considered as the accepted report for marks. Therefore it is better for you to recheck and resubmit many times until end date (date of full report submission accordingly as required), you are no longer able to resubmit.

Step 16) To print Similarity Index %, please click your turnitin report and print the last page of the document **ONLY**.
